

Title

Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua.

Macrostructure of the Argumentation

Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua. At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet.

Reconstruction of the First Argument

Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua.

At vero eos et accusam et justo duo dolores et ea rebum. Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor sit amet. Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua (Cho 2023, 33).

In the following, we will reconstruct the first argument in a formal way:¹

```
<1st Argument>: Lorem ipsum dolor sit amet, consetetur sadipscing elitr,  
sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat,  
sed diam voluptua. #pro  
  
(1) At vero eos et accusam et justo duo dolores et ea rebum.  
    // xy: Mx.Sxy → Gy  
    // Mx: x ist Mensch  
    // Sxy: x strebt y an  
    // Gy: y ist "das" Gute  
(2) Stet clita kasd gubergren, no sea takimata sanctus est Lorem ipsum dolor
```

¹Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua.

```
sit amet.  
// xyz: Mx.Sxy.Ezy → Ryz  
// Ryz: y ist auf z hingerichtet  
// Ezy: z ist der Erfüllung von y  
-- from 1-3 with logical magic --  
(5) Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy  
    eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam  
    voluptua.  
// xy: Mx.Sxy → Rya
```

Validity proof:

1. $xy: Mx.Sxy \rightarrow Gy$
2. $x: Gx \rightarrow Eax$
3. **Hence** (transitivity): $xy: Mx.Sxy \rightarrow Eay$
4. $xyz: Mx.Sxy.Ezy \rightarrow Ryz$
5. **Hence**: $xy: Mx.Sxy \rightarrow Rya$.
